

DOEACC CENTRE CALICUT  
COURSE PROSPECTUS

CDS/CA/7.5.1/F 40/R0

Name of the Group: IT Group  
Name of the Course: Advanced course in J2EE  
Course Code: SW-101  
Starting Date: 20-Sep-2010  
Duration: 3 months

Preamble: Given the growing demand for skilled professionals, and the rapid changes in technology, there is an increasing need to keep the academia abreast of the skill set requirement of the industry. The course has been designed to meet this requirement.

This job-oriented course is designed with a proper balance of theory with practice, so that students get enough hands on experience. The project work at the end of the course enables students to get an exposure to industrial standards.

Objective of the Course:

The course is a 3 month course aimed at preparing fresh graduates for professional positions in the software and IT industry by developing advanced skills in cutting-edge technologies like J2EE and web technology.

Outcome of the Course:

This is a hands on course which provides participants with the information and lab experience necessary to develop and deploy robust J2EE™ (Java 2 Enterprise Edition) framework applications. This course starts with core java and covers advanced Java and J2EE

Course Structure:

SINo.	Course Modules	Weeks
1	Core Java	4
2	J2EE	4
3	Project	4

More than 50% of the time will be devoted for guided practical sessions. The topics covered in each of the modules are given below.

Other Contents
